DSA Offers a “DO NOT CALL” and “DO NOT MAIL” Solution

Sydney, Australia: Data Solutions Australia Pty Ltd (DSA) now offers a complete solution for companies looking to telemarket or mail consumers throughout Australia.

DSA warrants that all data is privacy compliant at the point of sale and includes an indemnity date which lets clients know when, and how long they can use the data for. This protects businesses from inadvertently contacting consumers on either the ACMA's Do Not Call Registry or the ADMA's Do Not Mail Registry.

David Webb, Director of Data Solutions Australia said "DSA is the first company to offer protection dates on data. Clients buying our data not only enjoy competitive pricing, they also do not have to spend any money on the **DO NOT CALL REGISTRY or DO NOT MAIL REGISTRY**"
